Recently achieved a certificate in University of Toronto Bootcamp, with newly developed technical skills in React, Node, Javascript, CSS, MySQL, MongoDB. Passionate with building a mobile-first application including graphic design, colour schemes, and user experience/interface.

TECHNICAL SKILLS

React, Node.js, MongoDB, MySQL, Javascript, Express, HTML/CSS

PROJECTS

JobLogger | github.com/nuleeannajeon/JobLogger | joblogger-loc.herokuapp.com
- JobLogger is a full MERN stack application to help users to organize and track their job application, and easily search for a new job. The app is using user accounts created either with email/password pairs or using linkedin authentication
- Technologies used: MongoDB, Mongoose, Express, Bcrypt, Passport, ReactJS, Material UI, Bootstrap, and Node

Me MyChef & I | github.com/tndus604/Me-My-Chef-and-I | lit-badlands-54539.herokuapp.com
- It is an application for users to organize ingredients from their own fridge by adding and deleting specific ones. Users can also search for any recipe based on the ingredients they search for.
- Technologies used: MongoDB, APIs, Javascript, HTML/CSS

PetHome | github.com/nuleeannajeon/PetHome | nuleeannajeon.github.io/PetHome/
- PetHome is a pet adoption application to help users to search for pets, and find any facts about specific breeds. This app will guide any new pet adopting owners to enhance their knowledge of their pets' breeds.
- Technologies used: HTML/CSS, APIs, Javascript

EXPERIENCE

Customer Sales and Service Agent   2017 – 2020
Air Canada   Mississauga, ON
- Maintained accurate and current customer account data with manual forms processing and digital information updates in RES III.
- Demonstrated high attention to detail, organization, and ability to manage multiple tasks and projects simultaneously.
